

30.10.2024

Information of Statistics Poland on the updated quarterly GDP estimate for 1995-2023 and the 1st and 2nd quarter of 2024

In relation to information of Statistics Poland on benchmark revision of national accounts in the years 1995 - 2022¹ of 10 October 2024, Statistics Poland publishes updated quarterly estimates of gross domestic product (GDP) for the years 1995–2023, consistent with annual data, and for the 1st and 2nd quarter of 2024.

The data has been compiled in accordance with the rules resulting from Regulation 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA2010)². The revision has been carried out in accordance with the guidelines of the Harmonised European Revision Policy (HERP) recommended by the European Commission (EC) consisting in the recalculation of the data from national accounts and balance of payments periodically to ensure its consistency and comparability across the EU.

The main changes concern:

- implementation of the European Commission (Eurostat) recommendation,
- using new data sources and updating existing data sources, including the results of the National Population and Housing Census 2021 (NSP 2021),
- implementation of the guidelines in the Manual on Government Deficit and Debt (MGDD),
- keeping the continuity and comparability of data series.

As part of the benchmark revision, the reference year for national accounts from 2015 to 2020 has also been changed.

Furthermore, the data for 2023 have been revised due to taking into account the more complete annual information on the results in 2023 in the following statistical areas: corporate finance, foreign trade in goods and services and general government sector accounts for the purpose of October EDP notification. At the same time the data for the 1st and 2nd quarter of 2024 were updated due to the change of the base year and the use of the most current data sources for the financial corporations, the general government sectors and for foreign trade turnover.

The details on individual changes implemented within the revision and their impact on GDP and gross national income (GNI) are presented in the above-mentioned information of Statistics Poland on benchmark revision of national accounts in the years 1995 -2022.

¹ The document (in Polish only) is available on the website of Statistics Poland <https://stat.gov.pl/obszary-tematyczne/rachunki-narodowe/roczne-rachunki-narodowe/informacja-glownego-urzedu-statystycznego-na-temat-rewizji-rachunkow-narodowych-w-lat-ach-1995-2022,17,2.html>

² The full text of the ESA 2010 Regulation is available at <https://stat.gov.pl/en/topics/national-accounts/european-system-of-national-and-regional-accounts-esa-2010/regulation-eu-no-5492013-of-the-european-parliament-and-of-the-council-of-21-may-2013,1,1.html>

Quarterly data for years 2021-2024 are presented in the attached tables.

In the tables 1 and 2 volume growth rates are presented at constant prices of 2020 with previous quarter=100 and corresponding quarter of the previous year=100 respectively, for GDP time series and its selected components, seasonally unadjusted, seasonally adjusted and trend.

Detailed data for GDP time series and its components at current prices as well as volume growth rates (corresponding quarter of the previous year = 100, constant average prices of the previous year) is presented in the tables 3 and 4.

The table 5 includes information on contribution to GDP volume growth rate.

The full set of data are available on the website of Statistics Poland in the Poland macroeconomic indicators database: <https://stat.gov.pl/en/poland-macroeconomic-indicators/>
