# Sold production of industry in May 2026<sup>1</sup>

**↑ 4.1%**

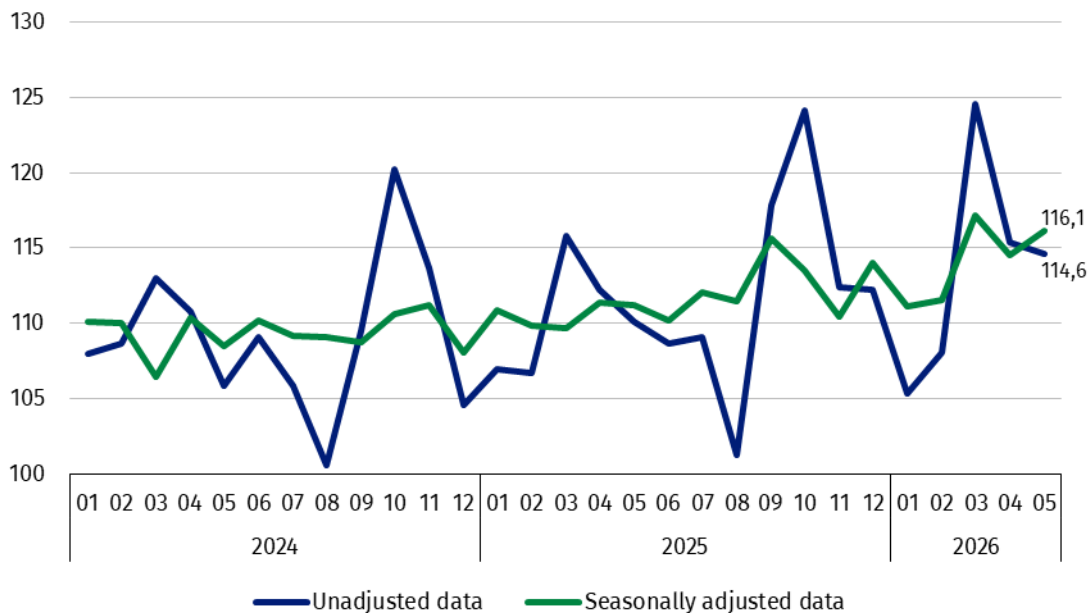

Increase in sold production of industry compared to May 2025

In May 2026, sold production of industry was by 4.1% higher than in May 2025 (when a similar increase of 4.0% was recorded), whereas in comparison with April 2026, it decreased by 0.8%. In the period January-May of 2026, sold production of industry was by 3.1% higher than in the corresponding period of 2025 (which saw an increase by 1.6%).

After eliminating the seasonal factors, in May 2026 sold production of industry reached the level higher by 4.4% than in the corresponding month of 2025 and by 1.4% higher than in April 2026.

After seasonal adjustment, sold production of industry in May 2026 increased by 4.4% per year

**Chart 1. Sold production of industry (constant prices; monthly average of 2021=100)**

In May 2026, among the main industrial groupings there was an increase per year in the production of intermediate goods – by 7.5%, energy – by 4.8%, capital goods – by 4.4% and non-durable consumer goods – by 0.5%. A decrease was observed in the production of durable consumer goods – by 4.6%.

The highest y/y increase was recorded in the production of intermediate goods, while a decrease – in the production of durable consumer goods

<sup>1</sup> Preliminary data; comprise enterprises with 10 or more persons employed.

a Data including final information on production and prices in April and preliminary data in May.

\* Data revised.

**Chart 2. Sold production of industry (constant prices; corresponding month of previous year=100)**

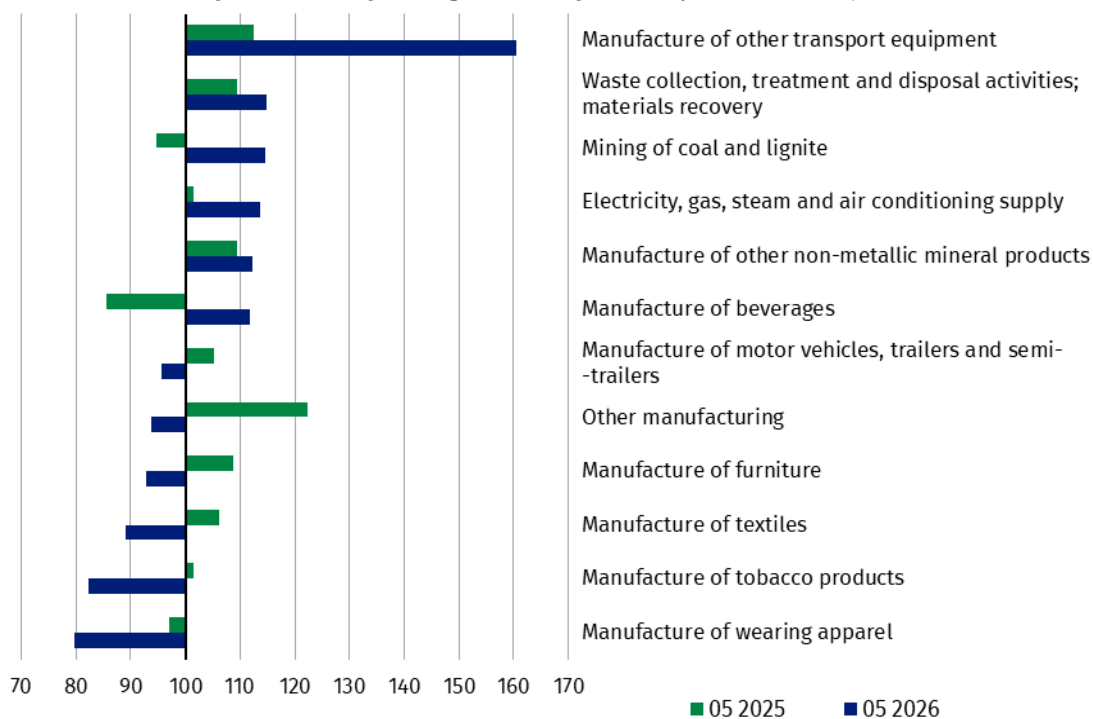

According to the preliminary data, in May 2026 an increase in sold production (in constant prices), compared to May 2025, was reported in 23 (out of 34) industry divisions, among others in manufacture of other transport equipment – by 60.5%, in waste collection, treatment and disposal activities; materials recovery – by 14.8%, in electricity, gas, steam and air conditioning supply – by 13.7%, in manufacture of other non-metallic mineral products – by 12.2%, manufacture of beverages and manufacture of paper and paper products – by 11.8% each, manufacture of machinery and equipment – by 5.7%, manufacture of computer, electronic and optical products – by 5.3%.

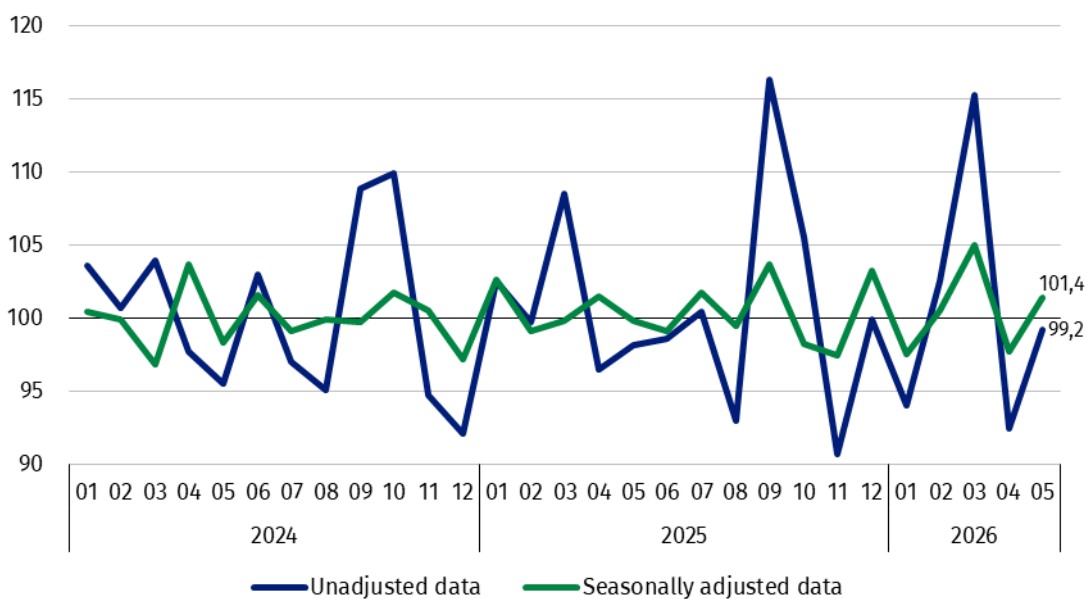

A decrease in sold production of industry, compared to May 2025, was recorded in 11 divisions, among others in manufacture of textiles – by 10.8%, manufacture of furniture – by 7.1%, manufacture of motor vehicles, trailers and semi-trailers – by 4.4%.

The share in total industry of sold production of divisions which recorded an increase per year amounted to 76.8%

**Chart 3. Sold production of industry by selected NACE Rev. 2 divisions  
(constant prices; corresponding month of previous year=100; unadjusted data)**

**Chart 4. Sold production of industry (constant prices; previous month=100)**

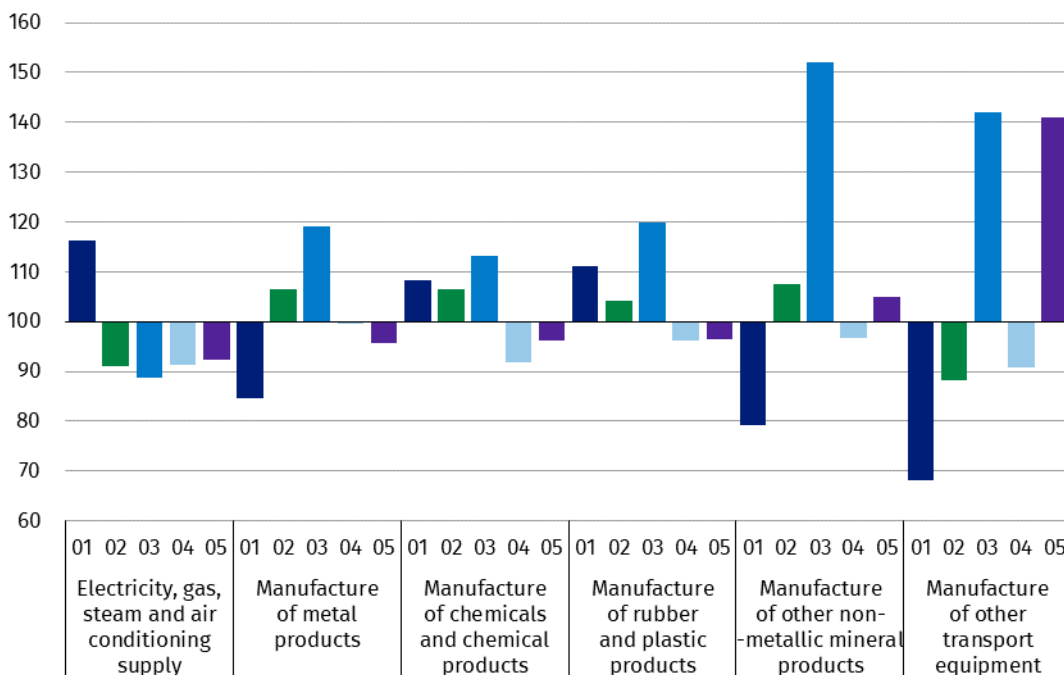

In May 2026, a decrease in sold production (in constant prices), compared to April 2026, was recorded in 22 (out of 34) industry divisions, among others in mining of coal and lignite – by 10.5%, in electricity, gas, steam and air conditioning supply – by 7.6%, in manufacture of furniture – by 7.0%, manufacture of metal products – by 4.4%, in repair and installation of machinery and equipment – by 4.3%, manufacture of chemicals and chemical products – by 3.7%, manufacture of rubber and plastic products – by 3.6%, manufacture of motor vehicles, trailers and semi-trailers – by 3.3%.

An increase in sold production of industry, compared to April 2026, was recorded in 12 divisions, among others in manufacture of other transport equipment – by 41.0%, manufacture of beverages – by 9.0%, manufacture of paper and paper products – by 6.0%, manufacture of other non-metallic mineral products – by 4.9%.

The share in total industry of sold production of divisions which recorded a decrease compared to April 2026 amounted to 76.8%

(constant prices; previous month=100; unadjusted data)**

**Methodological note**

Data presented in this news release concern entities with 10 or more persons employed, conducting economic activity classified according to the Polish Classification of Activities (PKD 2007/NACE Rev. 2) to Industry, i.e. to the following sections: ‘Mining and quarrying’, ‘Manufacturing’, ‘Electricity, gas, steam and air conditioning supply’, ‘Water supply; sewerage, waste management and remediation activities’.

Statistical unit, according to which the presented data are compiled, is a legal unit. Methodology of compiling data on sold production of industry is presented in the methodological report [Industrial production surveys](#).

In addition, for the needs of European statistics, data on industrial production are also compiled according to the kind-of-activity unit (KAU). The concept of the kind-of-activity unit is presented in the methodological report [Short-term statistics by European concept of the Kind-of-activity unit](#).

In case of quoting Statistics Poland data, please provide information: “Source of data: Statistics Poland”, and in case of publishing calculations made on data published by Statistics Poland, please include the following disclaimer: “Own study based on figures from Statistics Poland”.
