

Construction and assembly production in May 2026¹

22.06.2026

↑ 3.9%

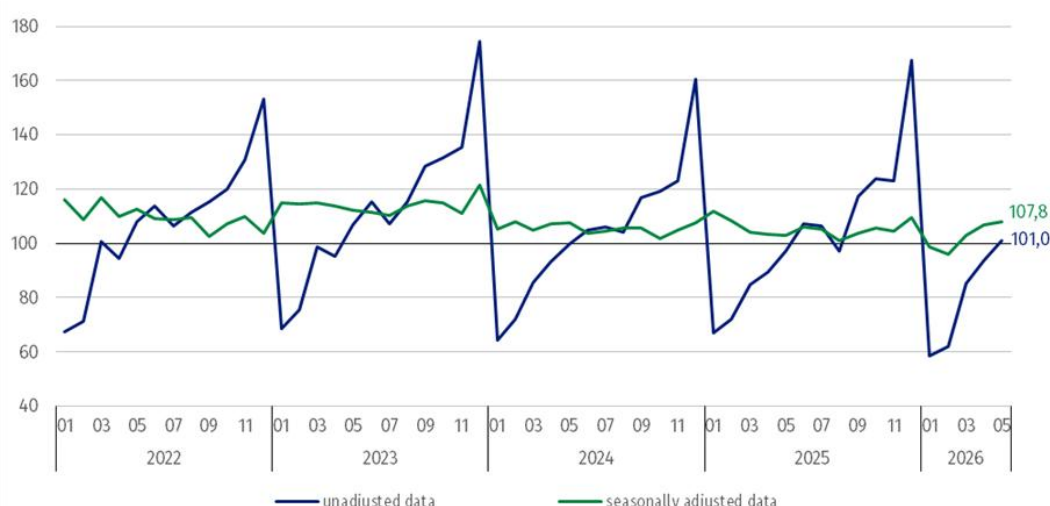

Increase of construction and assembly production compared to May 2025

According to preliminary data construction and assembly production (in constant prices) carried out domestically was in May 2026 higher by 3.9% an annual. Compared to April 2026 an increase was noted by 7.9%.

In May 2026, after eliminating the seasonal factors, construction and assembly production reached the level by 4.8% higher than in the corresponding month of the previous year and higher by 0.8% in comparison to April 2026.

After seasonally adjusted, the increase was noted in construction and assembly production of 4.8% an annual

Chart 1. Construction and assembly production (constant prices; average monthly base 2021=100)^a

^a Preliminary data for May 2026.

Compared to the average monthly value of 2021 construction and assembly production in May 2026 (in constant prices), was higher by 1.0%, whereas after eliminating the seasonal factors was higher by 7.8%.

Construction and assembly production in May 2026 increased in entities performing specialised construction activities of 10.8% and dealing mainly with construction of buildings of 5.8%, whereas decreased in entities whose basic type of activity was civil engineering of 1.8%.

¹ Preliminary data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

In May 2026 compared to April 2026, an increase in the sales of construction and assembly production was noted in all construction divisions. In entities dealing mainly with civil engineering works of 10.7%, performing specialised construction activities of 6.6% and in entities whose basic type of activity was construction of buildings of 5.7%.

Table 1. Construction and assembly production (constant prices)^a

Specification	2026					
	04	05	04	05	01-04	01-05
	previous month = 100		corresponding period of the previous year = 100			
CONSTRUCTION	109.8*	107.9	104.5	103.9	94.2	94.9
Construction of buildings ^Δ	103.7	105.7	105.2	105.8	95.1*	94.8
Civil engineering works ^Δ	125.4*	110.7	104.0*	98.2	93.8	95.5
Specialised construction activities	99.5*	106.6	104.6*	110.8	93.7	94.4

^a Data including final information on production and prices in April and preliminary data in May 2026.

* The data has been changed compared to what was previously published.

^Δ Abbreviated form according to PKD 2007.

In the period January-May 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production was noted of 5.6% in entities performing specialised construction activities, in entities whose basic type of activity was construction of buildings of 5.2% and dealing mainly with civil engineering works of 4.5%.

Analyzing the value of construction and assembly production in May 2026 in terms of construction works (investment and restoration works) were observed:

- an annual increase for investment works by 15.9% and a decrease for restoration works by 23.1% (in May 2025, an increase for investment of 4.2% and a decrease for restoration of 15.7%),
- compared to April 2026, an increase for investment works by 10.1% and for restoration works by 1.3%.

In the period January-May 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production was noted for restoration works by 27.6% and an increase for investment works by 4.9% (in 2025, a decrease for restoration works of 10.1% and an increase for investment works of 6.4%).

In the period January-May 2026 construction and assembly production decreased of 5.1%.

In May 2026, investment works increased by 15.9% an annual and by 10.1% compared to April 2026
