Table 1. Dynamics of services production (constant prices; unadjusted data)

Specification	03 2026	04 2026	03 2026	04 2026	03 2026	04 2026
	previous month=100		corresponding month of the previous year=100		monthly average 2021=100	
TOTAL SERVICES	110.7	98.2	111,0	106.6	134.2	129,0
Transportation and storage	110.2*	99.4	111.6*	106.8	121.8*	121.6
Accommodation and food service activities	97.1	103.4	103.9	105.5	133.2	137.9
Information and communication	116.6*	94.4	109.6*	109.7	153.3*	142.3
Real estate activities	109.4	100.8	110.4	111.9	115.2	113.7
Professional, scientific and technical activities ¹	108.6*	98.8	113.6*	106,0	138.3*	136.6
Administrative and support service activities	104.7*	100.4	104.2*	99.6	114.7*	114.8

*Data revised.

According to the preliminary data, in April 2026, in sections with the largest shares in the total index, i.e. in Section J *Information and communication* and in Section H *Transportation and storage*, a year-to-year increase of 9.7% and 6.8% respectively was recorded.

On the level of divisions, the highest increase of services production in comparison with April 2025 was recorded in publishing activities – of 23.8%, in telecommunications – of 15.4% as well as in accommodation – of 15.3%.

The largest decrease in services production, however, occurred in public and licence programmes broadcasting – of 15.3%, in tour operator, middlemen, agents and other reservation service and related activities – of 9.8% and in employment activities – of 5.6%.

¹ Professional, scientific and technical activities, excluding activities of head offices and holding companies, excluding financial holding companies (M70.1), scientific research and development (M72), and veterinary activities (M75).

Chart 3. Dynamics of services production in selected PKD 2007 divisions (constant prices; corresponding month of the previous year=100; unadjusted data)²

Compared to the previous month, in April 2026, total services production decreased by 1.8%. In Section J *Information and communication* a decrease of 5.6% was observed, while in Section H *Transportation and storage* – of 0.6%.

On the level of divisions, increases compared with March 2026 were observed in legal, accounting, bookkeeping and auditing activities, tax consultancy – of 8.3%, in publishing activities – of 8.0% and in accommodation – of 5.4%.

The highest decrease was observed in tour motion picture, video and television programme production, sound recording and music publishing activities – of 36.7%, in computer programming, consultancy and related activities – of 12.2% and in management consultancy activities – of 8.8%.

² Dynamics for all activities covered by the survey are presented in the enclosed XLSX file featuring charts. Dynamics of service production regarding water transport and air transport were not published due to statistical confidentiality.

Methodological note

In accordance with the Commission Implementing Regulation (EU) 2020/1197 of 30 July 2020 laying down technical specifications and arrangements pursuant to Regulation (EU) 2019/2152 of the European Parliament and of the Council on European business statistics repealing 10 legal acts in the field of business statistics, the aggregate "Production of services" includes the following service activities according to the Polish Classification of Activities (PKD 2007):

- section H *Transportation and storage*;
- section I *Accommodation and food service activities*;
- section J *Information and communication*;
- section L *Real estate activities*;

- section M *Professional, scientific and technical activities* excluding activities of head offices and holding companies, excluding financial holding companies (M70.1), scientific research and development (M72), and veterinary activities (M75);
- section N *Administrative and support service activities*.

Index of services production was developed based on the data from the following sources:

- DG-1 *Report on economic activity*;
- SP *Annual enterprise survey*;
- Survey on prices of consumer goods and services;
- Survey on services producer prices;
- Survey on prices of residential premises.

Due to the current methodology for developing the total index of services production, and index of services production for different levels of aggregation (PKD 2007 divisions and sections), it is not recommended to calculate the indexes in relation to the previous month and the corresponding month of the previous year based on the provided indicators in relation to the monthly average of annual base year (2021=100). Due to the use of the weighting system, the indicators will differ. The methodology for calculating the index of services production is consistent with the guidelines of the OECD manual ["Compilation Manual for an Index of Services Production"](#).

The data concern service entities with 10 or more employees. The basic statistical unit for which the above data was developed is the "legal unit". The definitions of statistical units, including the "legal unit", was specified in Council Regulation (EEC) 696/93 of 15 March 1993 on the statistical units for the observation and analysis of the production system in the Community.
