

Construction and assembly production in June 2026¹

20.07.2026

↑ 5.2%

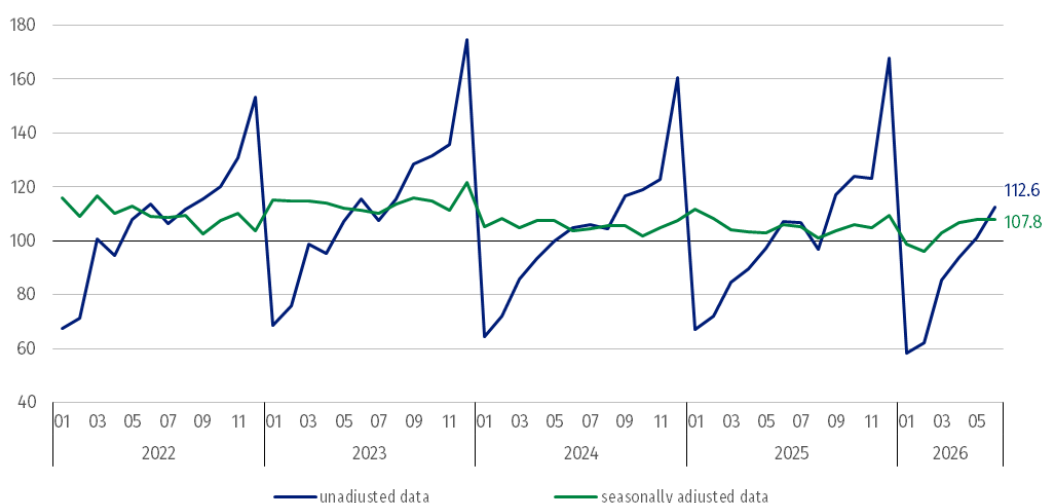

Increase of construction and assembly production compared to June 2025

According to preliminary data construction and assembly production (in constant prices) carried out domestically was in June 2026 higher by 5.2% an annual. Compared to May 2026 an increase was noted by 11.5%.

In June 2026, after eliminating the seasonal factors, construction and assembly production reached the level by 1.8% higher than in the corresponding month of the previous year and higher by 0.1% in comparison to May 2026.

After seasonally adjusted, the increase was noted in construction and assembly production of 1.8% an annual

Chart 1. Construction and assembly production (constant prices; average monthly base 2021=100)^a

^a Preliminary data for June 2026.

Compared to the average monthly value of 2021 construction and assembly production in June 2026 (in constant prices), was higher by 12.6%, whereas after eliminating the seasonal factors was higher by 7.8%.

Construction and assembly production in June 2026 increased in entities whose basic type of activity was civil engineering of 18.7%, whereas decreased in entities performing specialised construction activities of 5.7% and dealing mainly with construction of buildings of 2.9%

In June 2026 compared to May 2026, an increase in the sales of construction and assembly production was noted in entities dealing mainly with civil engineering works of 28.9%. The decreases were noted in entities performing specialised construction activities of 0.1% and in entities whose basic type of activity was construction of buildings of 0.1%.

The production of civil engineering increased, while specialised construction activities and construction of buildings decreased

¹ Preliminary data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

Table 1. Construction and assembly production (constant prices)^a

Specification	2026					
	05	06	05	06	01-05	01-06
	previous month = 100		corresponding period of the previous year = 100			
CONSTRUCTION	107.9	111.5	103.9	105.2	94.9	97.1
Construction of buildings ^Δ	105.7	99.9	105.8	97.1	94.8	93.5
Civil engineering works ^Δ	110.7	128.9	98.1*	118.7	95.5	100.2
Specialised construction activities	106.6	99.9	110.8	94.3	94.4	97.1

^a Data including final information on production and prices in May and preliminary data in June 2026.

* The data has been changed compared to what was previously published.

^Δ Abbreviated form according to PKD 2007.

In the period January-June 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production was noted of 6.5% in entities whose basic type of activity was construction of buildings and in entities performing specialised construction activities of 2.9%. An increase was noted in entities dealing mainly with civil engineering works of 0.2%.

Analyzing the value of construction and assembly production in June 2026 in terms of construction works (investment and restoration works) were observed:

- an annual increase for investment works by 19.2% and a decrease for restoration works by 26.8% (in June 2025, an increase for investment of 9.3% and a decrease for restoration of 11.3%),
- compared to May 2026, an increase for investment works by 13.7% and for restoration works by 4.2%.

In the period January-June 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production was noted for restoration works by 29.1% and an increase for investment works by 8.9% (in 2025, a decrease for restoration works of 11.8% and an increase for investment works of 5.2%).

In the period January-June 2026 construction and assembly production decreased of 2.9%

In June 2026, investment works increased by 19.2% an annual and by 13.7% compared to May 2026
