Chart 2. Retail sales (constant prices, corresponding period of previous year=100)

¹ Corrections made by reporting entities were included in cumulative data.

Retail sales of goods by predominant type of enterprise activity

In June 2026, retail sales (at constant prices) compared with the corresponding period of 2025 increased in all groups. High sales growth was recorded in the following goods categories: “furniture, radio, TV and household appliances” (by 14.8%), “pharmaceuticals, cosmetics, orthopaedic equipment” (by 10.2%), “others” (by 9.9%), “motor vehicles, motorcycles, parts” (by 9.6%). “solid, liquid and gaseous fuels” (by 9.0%). An increase in sales was also shown by units classified into groups: “textiles, clothing, footwear” (by 3.3%), “newspapers, books, other sale in specialized stores” (by 3.0%), “food, beverages and tobacco products” (by 1.7%).

In June 2026, the value of retail sales via Internet at current prices was by 12.3% higher than a year ago and the share of sales via Internet in “total” sales compared with the corresponding period of 2025 increased from 8.7% to 9.1%. Among the presented groups with a significant share of sales via Internet an increase in share was reported by enterprises from the groups: “furniture, radio, TV and household appliances” (from 17.7% a year ago to 19.7%), “newspapers, books, other sale in specialized stores” (respectively from 20.1% to 21.7%). However, a decrease in share was recorded in the group “textiles, clothing, footwear” (from 23.0% to 22.6%).

Chart 3. Retail sales of goods in June 2026 by groups (constant prices, corresponding period of previous year=100)

Table 1. Index numbers of retail sales (constant prices)

Specification	06 2026		01-06 2026
	05 2026=100	06 2025=100	01-06 2025=100
TOTAL	101.4	106.2	103.5
of which:			
Motor vehicles, motorcycles, parts	103.2	109.6	104.1
Solid, liquid and gaseous fuels	101.4	109.0	110.3
Food, beverages and tobacco products	101.1	101.7	98.9
Other retail sale in non-specialized stores	.	.	.
Pharmaceuticals, cosmetics, orthopaedic equipment	97.6	110.2	107.9
Textiles, clothing, footwear	105.0	103.3	100.8
Furniture, radio, TV and household appliances	100.6	114.8	107.0
Newspapers, books, other sale in specialized stores	98.7	103.0	98.3
Others	100.2	109.9	107.5

(.) Data not available, classified data (statistical confidentiality) or providing data impossible or purposeless

In June 2026, a significant increase in retail sales y/y was recorded, which was influenced i.a. by a larger number of trading days compared to June 2025

Table 2. Index numbers and structure of retail sales (current prices)

Specification	06 2026		01-06 2026	
	05 2026=100	06 2025=100	01-06 2025=100	Structure in %
TOTAL	100.2	106.8	104.1	100.0
of which:				
Motor vehicles, motorcycles, parts	102.4	102.6	97.8	7.8
Solid, liquid and gaseous fuels	95.8	115.9	114.4	14.3

Methodological notes

The data presented in this news release concerns trade and non-trade enterprises employing more than 9 persons. Groups of enterprises were created on the basis of the Polish Classification of Activities (PKD 2007) and a given enterprise is included to a specific category by predominating kind of activity and according to its present organizational status in mentioned period. The recorded changes of rise or fall of the dynamics of retail sales in particular groups of enterprises activity may result from a change in the predominating kind of activity and organisational changes (e.g. a merger of enterprises). This does not have impact on the dynamics of the total retail sales.

The published monthly information on trade activity, in addition to retail sales, also includes data on the volume of sales² by kind-of-activity unit (KAU), which is compiled for the needs of European statistics. The volume of sales (constant prices 2021=100) includes divisions and groups of Section G according to PKD 2007 - "Wholesale and retail trade; repair of motor vehicles and motorcycles". The data is disseminated on the website of the Statistics Poland: [Knowledge Databases - Short-Term Statistics data by KAU](#)

When quoting Statistics Poland data, please provide the information: "Source of data: Statistics Poland", and when publishing calculations made on data published by Statistics Poland, please include the following disclaimer: "Own study based on figures from Statistics Poland".

² The volume of sales is defined as turnover in trade deflated by price index i.e. turnover at constant prices (2021=100).
