Starting from the data for January 2026, the scope of tables attached to the news release has been reduced. Data on employed persons in the national economy, broken down by territory, i.e. by administrative and statistical units are available in the Local Data Bank. Detailed data on demographic characteristics of employed persons will be published once a year – as at 31 December.

The tables attached to this news release present selected survey results by PKD 2025/NACE Rev. 2.1 section. During the transitional period, which runs until 31 December 2026, relating to the reclassification of national economy entities from PKD 2007/NACE Rev. 2 to PKD 2025/NACE Rev. 2.1, the data from the Survey on Employment in the National Economy are presented using, amongst other things, correspondence tables between NACE Rev. 2 and NACE Rev. 2.1, available on the Eurostat website:

<https://ec.europa.eu/eurostat/web/nace/correspondence-tables>

The data refer to employed persons in the national economy, living in Poland or abroad. Each employed person is identified once – in the main job.

Data on employed persons in the national economy refer to persons performing work which brings them earnings (in the form of wages and salaries) or income. Employed persons include: employees, i.e. persons employed on the basis of an employment relationship (employment contract, appointment, nomination, election) or a service relationship; self-employed persons, including contributing family workers; outworkers; members of farming co-operatives and clergypersons fulfilling pastoral duties.
