

Construction and assembly production in August 2026¹

21.09.2026

 **6.7%**

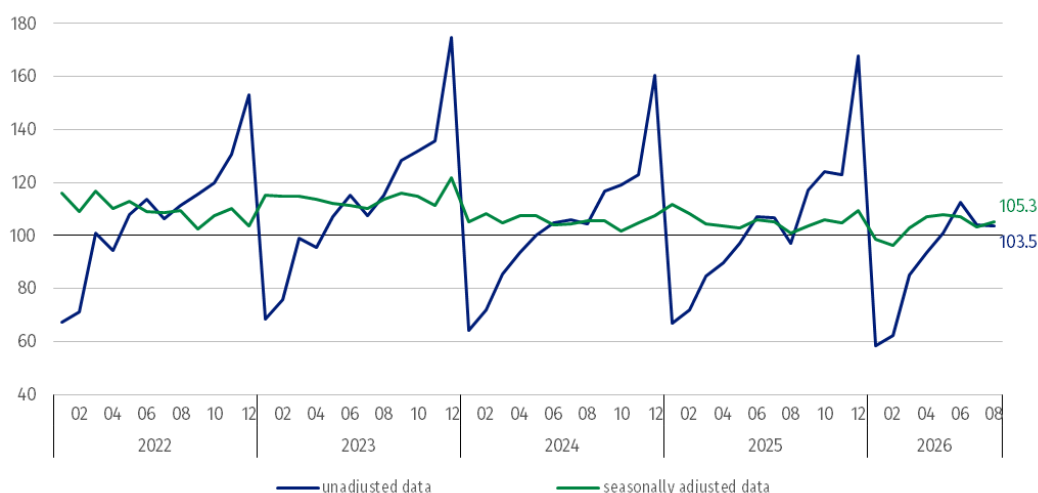

Increase of construction and assembly production compared to August 2025

According to preliminary data construction and assembly production (in constant prices) carried out domestically was in August 2026 higher by 6.7% an annual. Compared to July 2026 a decrease was noted by 0.6%.

In August 2026, after eliminating the seasonal factors, construction and assembly production reached the level by 4.3% higher than in the corresponding month of the previous year and higher by 1.9% in comparison to July 2026.

After seasonally adjusted, the increase was noted in construction and assembly production of 4.3% an annual

Chart 1. Construction and assembly production (constant prices; average monthly base 2021=100)^a

^a Preliminary data for August 2026.

Compared to the average monthly value of 2021 construction and assembly production in August 2026 (in constant prices), was higher by 3.5%, whereas after eliminating the seasonal factors was higher by 5.3%.

Construction and assembly production in August 2026 increased in entities whose basic type of activity was civil engineering works of 29.0% and performing specialised construction activities of 4.1%. A decrease was noted in entities dealing mainly with construction of buildings of 19.6%.

In August 2026 compared to July 2026, decreases in the sales of construction and assembly production were noted in entities whose basic type of activity was construction of buildings

The construction and assembly production increased in in entities whose basic type of activity was civil engineering works of 29.0%

¹ Preliminary data; comprise enterprises employing over 9 persons, whose the main type of activity is included in the section F "Construction" in accordance with the Polish Classification of Activities (PKD 2007).

of 16.5% and performing specialised construction activities of 4.6%. An increase was noted in entities dealing mainly with civil engineering works of 12.3%.

Table 1. Construction and assembly production (constant prices)^a

Specification	2026					
	07	08	07	08	01-07	01-08
	previous month = 100		corresponding period of the previous year = 100			
CONSTRUCTION	92.5*	99.4	97.7*	106.7	97.5	97.9
Construction of buildings ^Δ	96.0*	83.5	98.2	80.4	95.5	93.8
Civil engineering works ^Δ	87.7*	112.3	99.9*	129.0	99.1*	101.6
Specialised construction activities	97.2*	95.4	93.8*	104.1	97.5	97.3

^a Data including final information on production and prices in July and preliminary data in August 2026.

* The data has been changed compared to what was previously published.

^Δ Abbreviated form according to PKD 2007.

In the period January-August 2026, in relation to the same period of the previous year, decreases in the sales of construction and assembly production were noted of 6.2% in entities whose basic type of activity was construction of buildings and in entities performing specialised construction activities of 2.7%. An increase was noted in entities dealing mainly with civil engineering works of 1.6%.

Analyzing the value of construction and assembly production in August 2026 in terms of construction works (investment and restoration works) were observed:

- an annual increase for investment works by 19.3% and a decrease for restoration works by 20.8% (in August 2025, decreases for investment works of 4.8% and for restoration works of 11.5%),
- compared to July 2026, a decrease for investment works by 1.0% and an increase for restoration works by 0.7%.

In the period January-August 2026, in relation to the same period of the previous year, a decrease in the sales of construction and assembly production was noted for restoration works by 28.1% and an increase for investment works by 9.7% (in 2025, decreases for restoration works of 3.2% and for investment works of 0.4%).

In the period January-August 2026 construction and assembly production decreased of 2.1%

In August 2026, investment works increased by 19.3% an annual
