

# Gross domestic product: updated estimate for 2025

06.10.2026

**103.8**

GDP growth in 2025

According to the revised estimate, gross domestic product (GDP) in 2025 increased by 3.8% in comparison to 2024. The result has changed compared to previously published on 16<sup>th</sup> April 2026 by 0.2 percentage points.

Statistics Poland developed a revised estimation of gross domestic product (GDP) for 2025 based on annual sources of information and the revised data of gross domestic product for 2024.

The presented data on GDP and its components for 2025 have been revised in comparison to the previously published on 16<sup>th</sup> April 2026 due to taking into account the more complete annual information on the results in 2025 regarding corporate finance, foreign trade in goods and services and notification of the deficit and debt of the general government sector for the purpose of October EDP notification.

The result of the revised estimate of gross domestic product for 2025 are changes in absolute levels and real GDP dynamics and its components.

The following table presents a comparison of data published on 16<sup>th</sup> April 2026 with current data, i.e. after implementation of updated sources.

**Table 1. Real growth of GDP and its components for 2022–2025**
