

Gross domestic product: updated quarterly estimate for years 2025-2026

16.10.2026

Following the release *Gross domestic product: updated estimate for 2025*¹ of 6 October 2026, Statistics Poland publishes updated quarterly estimate of gross domestic product (GDP) for 2025 consistent with the annual data, and updated data for the 1st and 2nd quarters of 2026.

The presented data on GDP and its elements for 2025 have been revised in relation to those published on 16.04.2026² due to taking into account the more complete annual information on the results for 2025 in the following statistical areas: corporate finance, foreign trade in goods and services and accounts of the general government sector for the purpose of October EDP notification. At the same time, the estimates for the 1st and 2nd quarter of 2026 have also been updated due to the new data for the base year and the use of the latest available data sources for the financial corporations, the general government sectors and for foreign trade turnover.

The revised GDP estimates have resulted in changes in absolute levels and growth rates of real GDP and its components.

Table 1 presents changes in seasonally unadjusted real GDP growth rate compared to data published on August 31, 2026.

Table 1. Seasonally unadjusted GDP growth rate, constant average prices of the previous year

Specification	2025					2026	
	Q1	Q2	Q3	Q4	Q1-4	Q1	Q2
GDP growth rate as of 31.08.2026	103.2	103.3	103.8	104.1	103.6	103.5	103.9
GDP growth rate as of 16.10.2026	103.4	103.5	104.0	104.3	103.8	103.7	104.1
Difference	+0.2	+0.2	+0.2	+0.2	+0.2	+0.2	+0.2

As a result of the revision of the annual data for 2024, the quarterly real GDP growth rates were revised. The differences between the estimates amounted to +0.2 percentage points

Compared to the previous estimate, the GDP growth increased by 0.2 percentage points in the 1st and 2nd quarters of 2026. The revision was impacted, among others, by changes in public consumption expenditure and gross fixed capital formation

Net exports, data as of 16.10.2026	-0.9	-0.8	-0.2	-0.6	-0.6	0.2	0.5
Difference	-0.1	0.0	-0.3	-0.3	-0.1	+0.2	0.0

Quarterly data for 2023-2026 are presented in the attached tables.

Tables 1 and 2 present GDP volume growth rates and its selected components, seasonally unadjusted, seasonally adjusted and trend at constant prices of 2020 with the previous quarter=100 and corresponding quarter of the previous year=100.

Detailed data for GDP time series and its components at current prices as well as volume growth rates (corresponding quarter of the previous year = 100, constant average prices of the previous year) is presented in the tables 3 and 4. The table 5 includes the contribution to GDP volume growth rate.

The complete dataset is available on the website of Statistics Poland in the Poland macroeconomic indicators database: <https://stat.gov.pl/en/poland-macroeconomic-indicators/>
