Statistical Yearbook of Warsaw 2000

The Yearbook contains figures on the most important aspects of economy condition, social life and culture of the capital in 1998 and 1999 in a set-up with past years (mostly 1990, 1995, 1996 and 1997).

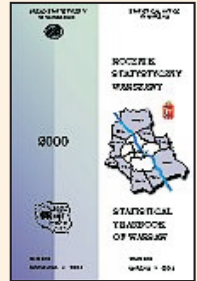

For the benefit of foreign readers it is translated into English.

The lay-out of chapters is consistent with previous issue of the Yearbook. The order of tables in each chapter is almost the same, small changes are due to necessity of increasing the amount of given information .

The Statistical Yearbook of Warsaw contains:

- in part I - statistical data on social and economic development of the Capital City. Due to the lack of information, data on household budgets is not included. An additional information presented in this part is data on finances of enterprises.
- in part II - information about Warsaw in a set - up with data on other voivodship cities.
- in part III - comparison of Warsaw with selected Capital Cities of Europe.

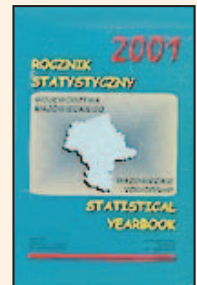

By: Warsaw, gminas and districts of Warszawa-Centrum gmina.

Population, vital statistics and migration in mazowieckie voivodship in 2000

This publication describes demographic situation of Mazowieckie Voivodship in 2001 and consists of four parts presenting the following information:

- size and structure of population,
- marriages, separations, divorces, births and deaths,
- internal and international migrations,
- projection of population.

Data on causes of deaths are given for the year 2000 due to prolonged time of data processing.

Tables contain data for voivodship (by urban and rural area), the Capital City of Warsaw as well as powiats and gminas grouped by sex and age.

At the beginning of the publication there are review tables containing selected information about the number of population, vital statistics and the order of magnitude of demographic phenomena.

Presented in retrospection data for years 1995 - 1998 were compiled according to Fundamental Three-Tier Division of the country implemented on January the 1st, 1999. It enabled to present the development of demographic phenomena for the whole Mazowieckie Voivodship during the years 1995 - 2001. Moreover, data concerning 5 subregions distinguished in 2000 in accordance with Nomenclature of Territorial Units for Statistical Purposes - NTS - are included.

Review of selected demographic phenomena is closed by a table, which presents gminas and districts of the Capital City of Warsaw.

The publication is supplemented with the Annex, which contains data on the population registered for permanent residence as of 30 VI 2000. The data served as a basis for the calculation of the most number of demographic rates for 2001.
